Project Background and Business Need/Opportunity

- Many businesses throw away their excess food waste at the end of their work day when it could be donated
- Businesses might not be aware that shelters are willing to accept their excess food, or they may not be willing to drop it off to shelters
- Our application will provide them the opportunity to donate their food with minimal effort

Project activity dates

- **March 3, 2023** - Mock tradeshow, created flyers and got feedback from students and professors.
- **March 5, 2023** - Discussed the feedback as a group.
- **March 8, 2023** - Added address links to the posts so volunteers know approximately how far a restaurant and shelter are from each other.
- **March 9, 2023** - Changed the color scheme and made other CSS changes to the Dashboard.
- **March 10, 2023** - Last scrum, received final notes from classmates and Tim.
- **March 13, 2023** - Began working on deployment on Heroku.
- **March 15, 2023** - Began working on the report.

Project Demo

Next up

- Final CSS check and clean up.
- User testing and run-through vlog.
- Project Report.
- Project Day Poster.
- Print flyers.
- Commercial video.
- Meeting with mentor (Karim).

Status Description

- Green
- Reasons:
 - Restaurant side done.
 - Shelter side done.
 - Volunteer side done.
 - Final end-to-end user experience done.
 - Redesign of website and new color scheme done.
 - We mapped out our end-to-end user experiences for all stakeholders.
 - Notifications done.
 - Deployment - Work in progress...
 - Little css changes as we keep adding backend code.
 - User testing will be done over the weekend.

Team reflection

- Do we feel on track?
- What progress do we feel great about?
- What barriers are a current impediment to success?
- What help do we require to move positively forward?
- What questions or concerns do we have?
