No More Waste

Why

Many businesses throw away their excess food waste at the end of their work day when it could have been donated to shelters in our city. Businesses might not be aware that shelters are willing to accept their excess food, or they may not be willing to drop it off at shelters themselves.

Aim

We want to prevent food waste, help the homeless population in Regina and fill a gap by providing businesses with the opportunity to eliminate their food waste.

How

By creating a web application that will allow restaurants to donate their excess food and allow shelters to request it. Volunteer drivers will be available to pick up the food and deliver it to the shelters.
